EBSNA

Following the launch of the Emotionally Based School Non-Attendance (EBSNA) Framework for schools last June (2025), the attached poster has also been developed to provide advice, guidance and signposting for parents/carers whose children are struggling to attend school regularly.

The EBSNA Framework aims to provide professionals with a clear and accessible tool, that enables them to work more collaboratively with children, young people and their families. It uses a structured and transparent step-by-step approach to identifying the underlying issues that are preventing children and young people from attending; alongside practical guidance on the support and strategies needed for creating an action plan to help them return to school.

Emotional and Mental Wellbeing

In Hertfordshire children and young people who are registered with a Hertfordshire GP can currently access a range of services to support them with their emotional and mental wellbeing. This includes free online, virtual and digital support delivered through WithYouth young people's service for 5-18-year-olds (including the Lumi Nova game) and the Sandbox for 10-25-year-olds.

To ensure we are commissioning services that are based on the needs of children and young people, Hertfordshire County Council and the NHS are seeking the views of those who have or may access these services' support.

By completing this short survey as a young person or a parent/carer of a young person, you will help us understand your views and opinions as well as indicating what you might want from future online, virtual or digital mental health and emotional wellbeing support.

Complete the survey as a Parent/Carer or child or young person here: <https://surveys.hertfordshire.gov.uk/s/KTULEE/>
